“Fashion and music together gives you a different journey, different world and experience of life. Music gives my designs movement and rhythm. I dance with my designs. .”

–Double happiness, Vivienne Tam

### High Fashion Meets High Technology

Butterfly is a unique collaboration between Monster, a leader in consumer electronics, and renown Fashion Designer, Vivienne Tam. In stunning champagne gold and solid metal housing, Tam's butterfly adorns the headphones reflecting her aesthetic for exotic imagery. Monster's exclusive technologies deliver crisp, clean, refined sound so you hear all the intricate nuances of your favorite music. Butterfly, a headphone that sounds as extraordinary and beautiful as they look.

### Comfortable Multiple Sized Eartips for Customized Fit

Monster knows everyone's ears aren't the same size and shape. Comfortable multiple-sized eartips are included for a fit and feel that's right for you.

### ControlTalk: The Ultimate in iPod® and iPhone™ Control and iPhone/Music Phone Hands-Free Calling \*

With the built-in ControlTalk remote, you get on-cable control of your music, as well as easy, high quality hands-free calling. You'll enjoy quick-access music playback control, like volume, play/pause and tracking, without having to dig for your iPod or iPhone. Plus, the high-grade mic and high-resolution, sound-isolating headphones all combine to let you hear and be heard much more clearly—and conveniently—than you ever could with your iPhone to your ear.

### No More Wire Fussing with Monster's Cable Management System

Wires have a tendency to jumble-up. Monster's innovative cable clip keeps-it out of your way, reducing accidental pulling of the headphones and keeps the cable weight off the headphones so they stay snug and in your ear. The additional cable slider reduces tangles and eliminates sway and bounce while in use.

\*Remote and mic supported by iPod® Nano (4th/5th gen), Classic (120GB), Touch (2nd gen), iPhone™ 3GS and newer, but not all Blackberry.™ Remote supported by iPod Shuffle (3rd gen). Requires software v. 1.0.3 for iPod Nano (4th gen), 2.0.1 for Classic (120GB), and 2.2 or later for Touch (2nd gen). Support for Blackberry varies by model. Subject to change.
